FIGHTING RAMS.

Says a correspondent of the *Ohio Farmer*: At certain seasons of the year, rams are apt to develop their combative propensities, and those who keep several of them together often have trouble on account of their injuring each other. It is well known that they always "back-up" to get a start to butt. Stop their backing up and you disconcert them entirely. To do this, take a light stick (a piece of broom handle will do), about two or two and one-half feet long. Sharpen one end and lash the other end securely to his tail; the sharpened end will then draw harmlessly on the ground behind as long as his majesty goes straight ahead about his business; but on the attempt to "back up" he is astonished to find an effectual brake in the rear. Don't laugh and call this "all gammon;" but if you have a butting ram, try it, and the time to laugh will be when you see him jump out sideways, and whirl round and round, trying to inspect the machine, which will keep behind him.

"Keep the enemies of the country out of Congress," is the heading of an article in the Chicago *Courier* of Thursday last. The advice is good, and had the people two years ago have heeded it, the ex-confederates would not now be virtually the masters of the situation, as they are to-day, in one House of Congress. It is a humiliating thought that to-day the very men who, in 1865 laid down their weapons of rebellion against the government, and confessed themselves whipped into submission, are the dominant element in the lower House of Congress. It certainly is time that the people were arousing themselves to the importance of keeping the enemies of the country out of Congress. This work must be done by the Republican party. The Democrats seem naturally to prefer ex-rebels or their sympathizers to men who were loyal in the hour of the nation's peril. Let it be the watchword of every Republican to "keep the enemies of the country out of Congress."

Every married woman is personally acquainted with a man who will sit just alongside the stove and let the fire go out.

Why are cents separated from dollars? To make sense, of course, of course. Don't you see the point.

DECATUR, ILLINOIS:
Thursday Evening, April 6.

THE total vote in Connecticut, with only one town to hear from, is 98,485, against 100,983 last year. Ingersoll's (Democratic) majority is 3,657, and his plurality 7,414. The Senate stands 18 Democrats and 3 Republicans, and the House 159 Democrats to 85 Republicans.

SENATOR FERRY has appointed as a committee to investigate affairs in Mississippi Senators Boutwell, Cameron, Oglesby, Bayard and McDonald. They will proceed immediately to Mississippi, and be absent during the impeachment trial.

The Metropolis *Times* give a sketch of the life of the Hon. Thos. S. Ridgway, and strongly presents his claims as a Republican candidate for governor. Among other things, it tells us of his having clothed, fed and equipped an entire military company raised in his town in the early days of the war.

The largest contraction of the currency ever known in any one month under the provisions of the banking act of June 20, 1874, occurred during the month of March just closed. The deposit of greenbacks by National Banks for the withdrawal of bonds and the surrender of circulation amounted to $5,304,000. Treasurer New, who is good authority on National Bank matters, estimates that, during the remaining nine months of the year 1876, the contraction of the currency from this cause will be over $100,000,000.

THE "New play" produced by Nasby had a send-off at Buffalo on Saturday night. It is pronounced a success, and the *Express* says:

"The play of 'Inflation,' as we have stated, is founnded on the well known letters from the 'Confedrit X Roads.' In the dramatization a closer connection with the original letter has been preserved that was maintained by Mark Twain in placing the "Gilded Age" on the stage. The curtain rises upon a domestic scene, Bascom's store. All our old friends—Deacon Pogram, Colonel McPelters, Issaker Gavit, Colonel Buckby and Peter Pugsby—are found imbibing their morning sustenance.' To them appears the ex-postmaster, Nasby, who, being adjudged a loser in the local horse-race, is requested to 'treat,' the crowd. The refusal of Bascom to sell whisky on credit inspires in the brain of Nasby the brilliant idea of a bank which shall issue notes to an unlimited extent and shall be styled the "Unlimited Trust and Confidence Company." The curtain falls amid the uproarious enthusiasm which followed the broaching of the plan. We are next introduced to the practical workings of the great trust company. The groaning of the printing press is heard as the crisp notes are turned off by the bushel. Now, Nasby declares that he just begins to appreciate the power of the press.

"Act III. exhibits the Corners in the noontide of financial prosperity. Money is as plentiful as water; the corner stone of the new bank is laid amid imposing ceremonies, but a shadow already begins to fall upon the scheme. The supply of whisky in Bascom's grog-shop is running low. Something must be done to furnish funds, and Nasby once more comes to the front.

"Act IV. beholds him transported to Frankfort, Kentucky, and busily engaged with male and female lobbyists in carrying through sundry questionable bills, among which is a gigantic appropriation for the 'Unlimited.' His star is in the ascendant; his ventures prosper; he gives a grand entertainment, but, like a latter-day Belshazzar he is overwhelmed in the hour of pleasure by the news that his appropriation is not granted, his bills are killed, and he himself is debarred from the Legislature for peculation and fraud. The last act shows the complete humiliation of the great financier, who is dragged on the stage by the indignant Pugsby. Convinced of the failure of his schemes, he accepts the village store-keeper's offer of a clerkship and retires to private life."

A BILL has been introduced in Congress which proposes to exclude from the United States mails all lottery circulars, tickets and advertisements. This is right, and the bill ought to be passed. Of all the swindles that the people are exposed to, the lottery swindle is the most specious and enticing to large classes of people. In most of the Northern States lotteries are prohibited by law, but in some of the Southern States they are still legalised and licensed. A United States law that would prohibit all lotteries, and make their suppression a part of the duties of the United States courts, would be about the right thing. They are a swindle and a fraud, and the fact that in some of the States they are legalized, does not change the essential nature of the thing itself.

MRS. EATON.

Mrs. Belknap is not the first woman who has played the mischief in the Cabinet of a President. Jackson's Secretary of War also "had a wife." Peggy O'Neil was the daughter of a tavern-keeper at the famous town of Bladensburg. She married one Timberlake, a purser in the Navy, who soon left her a widow. Then she married Gen. James Eaton. She became the society leader, and then came scandal, and at last an explosion, when the wife of a foreign minister refused to sit at the table with Mrs. Eaton, proudly marching out of the room. Then other Cabinet wives cut her, and then she complained to the President, and the row became general. Resignations came in like autumn leaves, and Frank Blair, Sr., and Amos Kendall organized the famous "Kitchen Cabinet." Mrs. Eaton's power fell with Jackson's retirement, but she had spunk enough to give Van Buren a piece of her mind, shaking her fist in his face and calling him "sneaking old fox." Mrs. Eaton became religious, and gave largely to charity; and then, when past sixty, married a foreign dancing-master less than half her age. He robbed her of her jewels and personal property, and eloped with her grand-daughter. Mrs. Eaton is still living, or was a few months ago, supported by a grandson.

A SHOWER OF NEEDLES.

Harrodsburg, Ky., Gazette,

The Richmond *Register* refers to the strange phenomenon which occurred at Harrodsburg about 1845, of the shower of knitting needles. This strange occurrence was neither second to the Bath county carnipluvia in its marvelousness, nor in the satisfactory character of the testimony to the fact. There are a number of persons of the most reliable character yet living who cheerfully bear testimony to the fact.

Mr. F. W. Curry upon whose father's lot the shower fell, thus refers to the fact:

The shower occurred during the night. The needles fell over an area of an acre or more of what was used for a hemp factory lot. There was a storm of rain and wind during the night—in the morning the needles of all sizes, some of them whole and some broken, were lying on and sticking in the ground all over the lot. There were two or three pounds of them. Numbers of them were picked up by the women and used. No explanation of the phenomenon could be given. It was conjectured in the midst of the poverty of all explanation that these needles had fallen from the clouds. No one had missed any needles. They were found as related. The most substantial citizens can testify to the fact. No explanation has ever been given. We forebore mentioning it on account of its marvelousness. We are glad our neighbor took the initiatory. Mrs. John Thomas has some of the needles to this day.

A Burlington correspondent of the New York Herald writes:

"From the public sentiment so far as I have been able to learn from observations made and conversations had with many representative gentlemen of the Republican party, the Hon. James G. Blaine, of Maine, is the first choice of the Republicans of Vermont, for next President; but upon the other hand, Secretary Bristow stands in high favor, and would undoubtedly carry the Republican vote of the state unanimously if nominated at Cincinnati."

A correspondent, giving an account of the gathering of the Republican convention of Pennsylvania, says:

"The Blaine feeling is exceedingly strong. I have yet to meet a single representative who does not say with emphasis that his choice is Mr. Blaine if Gov. Hartranft has no chance. There is no discernible Bristow party. Needless to say that there are no supporters of Senator Conkling to be found, nor have the better class of New York candidates—Messrs. Evarts, Fish, Morgan or Dix—any advocates, nor does any mention the name of Charles Francis Adams."

WHEN elected President of the United States, Washington was 57 years of age; John Adams was 62; Jefferson 54; Madison, 69; Monroe, 59; John Quincy Adams, 58; Jackson, 61; Van Buren, 54; Harrison, 67; Taylor, 64; Polk, 49; Pierce, 48; Buchanan 65; Lincoln, 51; Grant, 46.

AN old farmer said to his sons: "Boys, don't you ever speckeriate, or wait for somethin' to turn up. You might just as well go and sit down on a stone in the middle of a medder with a pail twixt your legs, and wait for a cow to back up to you to be milked."

Snow fell to the depth of four feet in some parts of Georgia.

ST. LOUIS, April 5.—Of the 13 aldermen voted for yesterday, the democrats elected 6, the republicans 4, and the independents 3. The latter, however, are also democrats. Of the nine school directors, the democrats elect 5, the republicans 4. The people's charter ticket for freeholders, has a large majority.

CHICAGO, April 5.—The vote in the town elections, yesterday, has not been counted for the south town. In the north town, the citizens ticket, mixed republican and democrat, was elected, and in the west town, the republican candidates received a good majority. The vote is the largest ever polled at a town election.

TERRIFIC EXPLOSION AT SALT LAKE.

Whisky Cases and Election News.

WASHINGTON, April 5.—Generals Sherman and McDowell had a very extended interview with Secretary Taft upon army matters, and there are indications that the order for the restoring of the headquarters of the army from St. Louis to Washington will be speedily issued. Gen. Sherman and the Secretary, after the interview, visited the President at the White House.

The impeachment proceedings in the Senate to-day failed to attract much more than the usual audience. Among those in the guests' gallery was ex-Senator Fenton, of New York. There were but two or three persons in the diplomatic gallery, while the ladies' gallery was not over one-third full.—Montgomery Blair, of counsel for Belknap, said they wanted another month in which to prepare their case.

To-day the Senators were sworn in as Judges of Impeachment by the Chief Justice, and one more step has been taken in the Belknap trial. The next step will be taken on the 17th, when the Senate promises to summon Belknap, and then there threatens to be a break of a month, for one of Belknap's counsel said to-day that they should ask for a delay of thirty days after the 17th, in order to get ready. The Managers met again to-day and set the Committee on Evidence at work.

Gen. Babcock will testify to-morrow before the Clymer Committee an explicit denial of Detective Bell's testimony, and will show that he attempted to black-mail him.

Secretary Robeson gives a satisfactory explanation of the charges that he had accepted drafts on London to pay the naval fleet around, to be paid out of prospective appropriations from the next fiscal year, which would be a violation.

ST. LOUIS, April 5.—In the United States court, to-day, Constantine Maguire, ex-revenue collector of this district, was called with a view of determining the amount of punishment to inflict on him. It was finally decided that Mr. Maguire should make a statement in mitigation of punishment and he took the stand. He stated that he was advised by his counsel and counsel for the government, to plead guilty to several counts in the indictment against him, which he did with the understanding that the counts would be merged into one, and that the punishment would not be so severe. He made other statements, but they were of no special interest.

The Avery case was also brought up, but laid over till to-morrow.

PROVIDENCE, April 5.—The latest reports from the election, indicate that Lippett, republican, for governor, will have a majority over both opponents.

In the state election, to-day, the republicans elect the secretary of state. The regular republican assembly ticket is elected in this city. Lippett will be elected by the legislature, which will be about five-sixths republicans, and is understood to largely favor the election of Henry B. Anthony, to the United States Senate for the fourth term.

CHICAGO, April 5.—The South Branch distillery property, owned by Haas, Powell & Co., has been declared forfeited to the government, on account of frauds committed there. Simon Powell, one of the partners, pleaded guilty in the U. S. Court this morning, and the indictment as to the others, Haas and Bailey, were dismissed. The indictment charges conspiracy, removal of spirits, etc.

WASHINGTON, April 5.—The Election Committee of the House heard reports of the sub committee in the case of LeMoyne vs. Farwell, in the Third District of Illinois, and will decide the case Saturday. It is understood the majority favor giving the seat to LeMoyne, Democrat.

Counsel for Belknap will ask, on the 17th instant, the time set for the trial, an extension of two weeks.

Secretary Chandler, General Babcock and Colonel Luckey was before the investigating committee on expenditures in the War Department. Secretary Chandler gave a specific denial to detective Bell's evidence, so far as it relates to himself. The letter of appointment of S. C. Bell, dated January 15th, 1876, was shown, and Chandler identified it as a regular official document. Chandler says that Bell's name was first mentioned by the President at a Cabinet meeting. He (the Secretary) had experienced considerable difficulty in getting a chief of secret service. Subsequently, Bell called with a note from the President, and was told to call again, which he did several times in several minutes. One day General Hurlbut was sitting in witness' office, at the Interior Department, when Bell's card came in. Witness threw it carelessly upon the table and told the messenger to tell Bell he was engaged. General Hurlbut said, "Why, I know that man. He was a spy for me. He enlisted in the Rebel army as a private, was in several months and was then made Sergeant." Witness said if he could stay in the Rebel army seven months as a spy and keep his neck out of the halter, he must be a smart fellow, and ought to make a good detective. Witness appointed him more on what Hurlbut said than what the President said. Witness was under the impression that Bell handed him a card, but he failed to find it since, and may have been mistaken. Witness had never spoken to General Babcock or Colonel Luckey about it. Bell was discharged after a month's service. Witness discharged him because the President denounced him as a scoundrel. The President said Bell had applied to some one to certify that he was in the government employ to furnish information for or against Babcock, he didn't care which. Witness said neither he or LeBarnes, chief of the pension bureau, knew of Bell's performing any service for the pension bureau, for which Bell asked remuneration, therefore witness told LeBarnes not to credit the bill Bell presented. Bell afterwards deceived Assistant Secretary Cowan into endorsing a card for him that he had done the service claimed. Had no recollection of seeing the Bell voucher. Wouldn't have passed it if he had. Witness knew of no subscription being gotten up to defray the expenses of the Babcock trial, which was about $40,000. He had a letter from Borie, that Babcock was utterly ruined and he sent Babcock a check for $1,000. The Secretary branded Bell's testimony as entirely and absloutely false, so far as it related to him. Lucky never conversed with him about the Babcock case.

SALT LAKE, April 5.—This afternoon this city was thrown into consternation by three terrible explosions, succeeding each other at intervals of a few seconds. The people rushed into the streets, and consternation reigned supreme. The cause of the explosion was not known until an immense volume of smoke was seen rising from Arsenal Hill, immediately north of the city. Upon this hill were four powder magazines, containing about thirty tons of powder in all, which had exploded with terrific effect. The flouring mill and water works buildings on City creek, were riddled with boulders. Immense boulders fell, crushing through the roofs of the buildings throughout the city, some of them falling a mile distant. There were three men at work at one of these magazines, and all that can now be found of them is small pieces of flesh the largest piece being portions of a foot in a boot. Their names are not known. Mrs. Vannatta, in the 20th ward, was struck by a boulder and killed. Jas. Radden was also killed. A number of other persons were injured, and other deaths may occur. The cause of the explosion cannot be ascertained. It is claimed the men at work were smoking. Others state that some person fired a shot into the magazines. The damage to glass alone throughout the city will be near $50,000.

LATER—Two boys named Richardson and a son of Archie Hill, went after stock this morning taking their guns. Enough of their remains have been found to identify them. One of their hands was found clutching a duck. It is now supposed that they fired into the magazine. No men were at work there at the time.

The Daily Republican.

DECATUR, ILLINOIS:
Thursday Evening, April 6.

THE DAILY REPUBLICAN will be delivered to subscribers in any part of the city, at Twenty Cents per week.

Local Notices will be inserted at Ten Cents per line for the first insertion, and five cents per line for each subsequent insertion. Rates for time advertisements will be furnished upon application at the office.

TO DAILY SUBSCRIBERS.

Subscriptions to the DAILY REPUBLICAN will be collected every Saturday, at the places where the paper is delivered, unless otherwise ordered.

We would be much obliged if our subscribers would inform the carrier at what particular place they desire their papers to be left.

CITY DEPARTMENT.

..A full line of choice canned fruit at Imboden's.

..Go to Niedermyer's, near the mound, for choice fine-cut tobacco.

..Choice new maple sugar at Newell & Hammer's.

..Call on Adams & Bendure for pure teas and choice coffee.

..Fresh taffy made every morning at Ausback & Cassell's.

..The best five-cent cigars in the city at Billy Niedermyer's.

..For choice warm meals go to Faulkner's restaurant.

..If you want a nice American watch or clock, you can get it cheap at H. Post's, on Merchant street.

..For pure ground spices, and for superior coffee, roasted or ground, go to the Western Tea Company's store on East Main street.

..A full line of choice groceries and provisions may be found at D. M. Barnett & Co.'s. Choice butter and fresh eggs are a specialty at this house. They also keep a full line of canned and dried fruits of the best quality.

..It would be a good idea to drag or roll the streets for the purpose of breaking down the big lumps that are forming since the mud began to dry.

..Preparations for building are going rapidly forward, and soon new buildings will be seen going up in all directions about the city.

..The house cleaning campaign is about being inaugurated.

..Every cellar pump in town is engaged for the next thirty days, and it is expected that the water pumped from the cellars will raise the river out of its banks.

..About seven inches of snow fell in Alabama the latter part of last week, which may account for the chilling wind which comes up from that direction.

..The time is near when back alleys should be cleaned out and front yards put in order.

..Remember Frank Aiken in "Ticket-of-Leave Man to-night. Give him a crowded house.

..Prayer meetings at the several churches were well attended last evening, and we hear the services spoken of as being of a very interesting character.

..Election is over and Fred. Smith is happy. Things will be made right this year, and what ain't fixed this year will be next.

.."Retrenchment and reform," seems to be the order of the day in the council, as is indicated by the cutting down of salaries at the last meeting. The policy is well enough if not carried to extremes. Our idea of the matter is, that it is best to employ men who are good for something, and then pay them a reasonable compensation for their services.

..Travel on the railroads is increasing, and will doubtless continue to do so for some months to come.

..Everybody breathes more free and feels happier since sunshine returned.

..A Decatur chap wants to know how he can break up the conventional custom of a fellow being obliged to leave his girl and go home at half past ten.—Any fellow that chooses can knock the custom out of the way in double-quick, so far as he is individually concerned. Let him just give the parson a five-dollar note, and he can stay with her as long as he pleases.

..Reports from all over the county state that the mud is as unfathomable as the wiles of woman, and as affectionate as a candidate for office.

.."How much are those tearful bulbs by the quart?" asked a maiden of a grocer. He stared at her a moment, recovered himself, and said: "Oh, them inyuns; eight cents."

..It is being remarked by the "oldest inhabitant" in country districts just now, that the high-mud mark has never, during the past 100 years, reached its present line of altitude.

.."Don't scold at the breakfast table, it injures the digestion." It always did. Talk about the balmy air; the frozen flowers; the frozen eggs under discomforted hens; the perishing Hillers on the plains; the city election; the division of the country; the tulips; house-moving; the promise of mud, and other cheerful topics.

L. L. Ferriss is selling the very best quality of boots and shoes, and warrants every pair. His prices are lower than any other store in the city. Now opening about fifty cases per week of new spring goods. mar4dtf

Geology and the Bible.—Prof. Sanborn Tenney delivered his lecture on the "Wonders revealed by the Microscope" in the lecture room of the First M. E. Church on Tuesday evening.—Owing to the election and other excitements in the city, the audience was not so large as the merits of the lecture and the objects to which the proceeds were to be devoted entitled it to. Those who were present speak in high terms of the entertainment.

The subject of the lecture to-morrow evening, "Geology and the Bible," is of a more popular character, and we trust a crowded house will greet the lecturer.

"Ocean to Ocean."—This exciting drama was put upon the stage in fine style last evening by Mr. Frank E. Aiken and his company. The piece was a thrilling one throughout, and every part was well played. Where everything is so well done it is unnecessary to particularize, further than to say that Mr. Aiken and Miss Howard, who filled the leading *roles* in the play, added new laurels to their already brilliant reputation. It is also only simple justice to Mr. Aiken and his company to say that every one did admirably well. To-night the "Ticket-of-Leave Man" will be presented, in which Mr. A. and the entire company are perfectly at home. The house last evening was only fair, numerically, and we hope to see it packed to-night.

Resignation.—The following, which we clip from the Bloomington *Leader*, may be an item of interest to those of our people who are acquainted with the gentleman to whom it refers:

At a business meeting of the officers of the First Baptist Society, Saturday evening, the pastor Rev. Chas. E. Hewett, formally tendered his resignation, to take effect on the first of July. The society have the resignation under consideration. It is offered thus early, under a rule of the church, that when either the church or pastor is dissatisfied, they shall give notice three months in advance of any action.

Fell from the Cars.—We are indebted to Maj. G. R. Steele, route mail agent on the T., W. & W. R. R., for the following information:

As the mail train was coming east, to-day, the engineer discovered a man lying along side the track, about three miles east of Springfield. He stopped the train and backed up, when the man was discovered to be Thos. Hays, the rear brakeman of the freight train which went west an hour or two before. The supposition is that he fell from the train; he is very badly hurt—probably fatally. His home is at Fairmount, Ills. He was taken on board the train and conveyed to his home. Conductor Weems did all in his power for the comfort of the unfortunate man on the train.

Coming Back.—Geo. P. Miller thinks of returning to Decatur to go into business. Should he conclude to do so, he may be looked for about the first of May. George is a lively boy, and we have no doubt would do a large business as he used to do.

S. Einstein has received a larger stock of spring dress goods than ever before. The great decline in the market enables him to offer greater bargains than ever offered in Decatur. 4 d1w

CORRECTION.

Mt. Zion Ill., April 3 1876.
Editor Republican:—In your daily issue of March 29, '76, I noticed a communication from one who subscribes himself "Granger," to which I wish to offer a few remarks in reply; not that I consider the [illegible] of intellect displayed in the communication from my friend, Granger, of any consequence in the least, as it certainly is below the average, but my object in reply is to vindicate the said John Chrisman, as well as Rev. Mr. Crider, in soliciting his assistance in a protracted meeting in which there was much interest taken, and good accomplished. I conceive the whole object of the communication from friend Granger to be of a personal character, which is very apparent, namely: to avenge himself, perhaps, in some individual matter, in which he considers his high repute somewhat questioned, and perhaps lowered a little (as no doubt it is in this community) when put to test in the standard scale of morality. As to Chrisman's being suspended from the ministry, it was only temporarily, and on charges which could not be sustained, as he was reinstated fully and without a censure for bad conduct. Our friend Granger could not have intended any good in this hypocritical way of [illegible], and should have [illegible] the [illegible] centuries ago before setting himself up as critic to expose faults of others. "Let him that is guiltless cast the first stone."

CONSUMPTION!

Can be Cured.

—o—

This FACT has been fully demonstrated in more than

10,000 CASES,

—BY—

Dr. S. D. HOWE,

of New York, the GREAT

CONSUMPTION DOCTOR

Proprietor of the

Arabian Medicines,

celebrated throughout the world for their remarkable cures. Consumption can most certainly be cured by the use of

Dr. Howe's Arabian Milk Cure!
Dr. Howe's Arabian Tonic!
Dr. Howe's Arabian Liver Pills!

The PILLS, by the use of which the liver is aroused into healthy action, the stomach cleansed, and the bowels regulated.

The ARABIAN TONIC cleanses the system of all corruption, makes new blood, gives strength, and creates an appetite, and expels from the lungs through the blood the corruption which scrofula breeds upon them.

The ARABIAN MILK CURE strengthens the weak lungs, promotes expectoration, dissolves the mucous phelgm, and assists nature in throwing off the unhealthy matter, causing the irritation, and thus consumption may be cured.

Price of Milk Cure and Tonic, each $1.00 per bottle; six for $5.00. Pills, 25 cents per box; five boxes for $1.00.

LUCCA says: Your uprights are extraordinary instruments, and deserve their great popularity.

WEHLI says: Madame Parepa called your pianos the finest in the United States. I fully indorse that opinion. They have no rival anywhere.

Chain Pumps!

THE SUBSCRIBER WOULD RESPECTfully announce to the citizens of Decatur and Macon and adjoining counties, that he has secured the EXCLUSIVE RIGHT to

MANUFACTURE AND SELL

MERRILL & BARTLETT'S

Water-Purifying

Rubber Bucket Chain Pump,

And is prepared to furnish said Chain Pumps on short notice.

The advantages of this Pump over many others are many. The Chain being buttonless, it is much lighter, consequently it is not liable to break, and works much easier. The RUBBER BUCKETS which are attached to the Chain will not wear the Tubing, consequently it will last longer than when Metal Buttons are used. It is positively ANTI-FREEZING. It is a positive WATER PURIFIER, as each Bucket is constructed with an AIR CHAMBER, which carries a given quantity of pure air into the water, which immediately diffuses through the entire body of water, purifying and cleaning, and rendering it fit for use.
